

Parking enforcement on Lambeth Living Housing Estates

PLEASE ENSURE THAT YOUR PARKING PERMIT IS UP TO DATE

We would like to inform you that parking enforcement will be changing on your estate as of the 17th November 2014.

Many aspects of the parking enforcement will not change for the residents. Permits will stay the same price and the number of bays will not change. What will change is that Lambeth Council can penalize non permit holders more easily, in line with the on-street enforcement. This means that non-resident offences will reduce and parking for residents and permit holders will be less of an issue.

Residents and visitors will be able to park on their estate provided they have a current and valid permit or voucher that is displayed on their vehicle. (Please note the permits cannot be used to park on the public highway). There are no current plans to repaint or replace yellow lines.

Permit and vouchers can be purchased at Olive Morris House, Kennington Lane or through our website using the online permit application service. There will be no increase in the cost for a permit or voucher as part of this change.

<http://www.lambeth.gov.uk/parking-transport-and-streets/parking/apply-for-a-parking-permit>

Although these restrictions apply at any time to discourage unauthorised parking, informal agreements may be applied to individual estates to meet local needs. We will begin an engagement process shortly to establish these local rules working with the appropriate decision making body at each estate.

Parking enforcement will be carried out and managed through the Council's on-street parking contract. This service is currently provided by NSL. Lambeth Living will ensure that the right level of enforcement is taking place and to resolve any issues or complaints about the service, please find their contact details below.

For two weeks warning notices will be issued to inform non-permit holders of these changes. After this period NSL will be issuing Penalty Charge Notices (PCN's) against any vehicles that do not have permission to park on the estate or do not properly display their permit.

Key Dates			
Description	Date	Description	Date
Traffic Management Order released	31st October	Installation Ends	14th November
Issue warning notices	3rd November	Issue PCN's	17th November
